1. Introduction

Here are the latest results! Since the issue is early, we'll stick with the previously announced schedule.

The early deadline for issue 10 is Friday May 27, at 21:30 CET. It's always Fridays at 21:30 CET.

The deadline for issue 10 is Friday June 3, at 21:30 CET. It's always Fridays at 21:30 CET. Publication date for issue 10 is Wednesday June 22. It might be out sooner.

If issue 10 is out on time, the deadlines for issue 11 will be July 1 and 8. If you have heard nothing by the expected publication, feel free to get in touch to check up on it.

This round, the home advantage remains 8 VP. The home team is listed first in the league schedule. All cup games are on neutral field (no home advantage).

In addition, as always, you send coaching. Optionally, you can also discover talents and buy/sell players.

Orders that reach me before the early deadline clearly marked «final» waive your chance to change them, in return for a cash bonus of 20 kKj to your club. Optionally, you can let me know your orders are «always final» - an option for those of you who never change your orders anyway.

By the time you read this, I have already sent out your teams. If you haven't received them by the day after the publication, please get in touch.

2. Broadcast messages

Jed Stone, Frillby United:
« Interdimensional 'Forbidden' Space

Hallifac blipped into Forbidden Space'. It looked, felt, and smelt like a grey dusty corridor that had been abandoned for centuries. This was only partly true as the area was timeless. Literally timeless. When Father Time got things started, he neglected to include this area. Clocks will not function here 'Time' stands still because no one bothered to start it.

It was a young scientist called Zarguon, who discovered the 'Time Corridor' while messing around with Bioptical Mechanical Time Fluctuations in his bedroom on an old ZX Spectrum his father had bought from an Interstellar Junk Shop near a market on Binas V. (It had apparently dropped through one of the wormholes that pepper space and landed in the backyard of the shop one Sunday morning). The 'Corridor' drifted between time and space and Zarguon soon realised it could be used as a simple time machine. By keeping quiet about his discovery, he soon managed to make a name, and a lot of money, for himself by moving along the corridor and 'forecasting' the future events he had seen. Unfortunately, the 'Great Prophet Zarguon' as he became called, generally arrived late at any meeting that was arranged as his watch was always slow because he generally forgot to correct it after he had visited the corridor.

At some point over the years someone unknown had also stumbled across the 'Corridor'. They had used it to commit the 'Great Football Robbery', and nearly disrupted the 'Time Continuum' and removed the game of football from the entire 'Universe' at a very critical point in its existence. Agents of the U.F.A. (Universal Football Association) had corrected matters and sealed the 'Corridor'. The actual criminal had never been found so Hallifac was checking to make sure they had not returned to meddle further at this critical time. They hadn't. Like Mother Hibbert's Cupboard the 'Corridor' was bare and empty.»
