### 1. Introduction

---

Hello everyone! Here are the latest results. Since the issue is on time, we'll stick with the previously announced schedule. I'd like to remind you that there will be slight rule changes from next season onwards. I have heard from some of you already, but the microphone is still open for a few weeks. I want to publish the finalized rules at least before issue 10, preferably sooner, so if you have input, please let me know!

The early deadline for issue 8 is Friday May 12, at 21:30 CET. It's always Fridays at 21:30 CET.

The deadline for issue 8 is Friday May 19, at 21:30 CET. It's always Fridays at 21:30 CET. Publication date for issue 8 is Wednesday June 7. It might be out sooner.

If issue 8 is out on time, the deadlines for issue 9 will be June 16 and 23. If you have heard nothing by the expected publication, feel free to get in touch to check up on it.

Next issue, you send orders for:

- \* match days 13 and 14 in the league (see section 12)
- \* the Rosedale Knockout quarter finals (see section 13)

This round, the home advantage increases to 8 VP. The home team is listed first in the league schedule. All cup games are on neutral field (no home advantage).

In addition, as always, you send coaching. Optionally, you can also discover talents and buy/sell players.

Orders that reach me before the early deadline clearly marked «final» waive your chance to change them, in return for a cash bonus of 20 kKj to your club. Optionally, you can let me know your orders are «always final» - an option for those of you who never change your orders anyway.

By the time you read this, I have already sent out your teams. If you haven't received them by the day after the publication, please get in touch.

Jed Stone, Frillby United:  
«The Watcher's Log 6

The blame for the near destruction of the time continuum in 1966 (your time) must be placed on a small nondescript star called Pangal that drifts unseen on the far side of the constellation called Orian's belt. Of the twelve planets that revolve round Pangal, Santraginus V is the smallest and the only habitable planet. Of all the inhabitants of the planet it was one tribe that nearly destroyed the Universe. That tribe was the Fragarwee. This diminutive tribe inhabit the vast grass plains of Santraginus V where the grass grows to a height of five metres which is twice the height of the average Fragarwee. (For this reason the tribesmen can often be seen leaping high into the air with a shout of "We're the Fragarwee?") The only notable claim to fame that the Fragarwee have is that they learnt that bubbling Fallian marsh gas through Santraginus V sea water, produces a very powerful beverage which is the base from which Pan Galactic Gargle Blasters are created. As 'THE PLAN' was created at a party hosted by Paylord Managus where a large quantity of 'Blasters' were consumed, any logical being can see that ultimately the Fragarwee are responsible for what happened next.»
